- ▶ Information & Index ..... pages 81-84

## COMING SOON! NEW PRODUCTS FOR 2007!

### NEAR® High-Output/Long-Throw Weatherproof Speaker A12

The NEAR A12 provides long-throw and high-output capabilities to punch through crowd noise in general and sports venues. A high-efficiency horn-loaded, high-frequency driver, and dual 6" low-frequency drivers provide the highly focused sound necessary for louder venues while still retaining the accurate, refined sound of the other A-Series weatherproof speakers.

### In-Ceiling Subwoofer CSUB

The CSUB In-Ceiling Subwoofer provides the low-end bass response required in demanding venues. A superb 8" long excursion driver is critically matched to a bandpass-style enclosure to provide exceptionally deep base with a wide, smooth roll-off. This subwoofer is an excellent complement to Bogen's OCS1 and HFCS1/LP speakers. An innovative mechanical design incorporates the tile bridge into the speaker making for a truly quick and easy install.

### Small Footprint High-Fidelity Speaker HFSF1

Designed to harmonize with interiors of venues where aesthetics are important, the diminutive 7-1/4" diameter footprint of the HFSF1 belies its considerable output capability. Its 4" woofer and 3/4" dome tweeter are specially designed to optimize output level. A front-mounted vent provides extended bass response and the front-mounted rotary tap selection switch makes installation and setup a breeze. Add the CSUB subwoofer to create a truly superior music system for locations that demand superior sound.

# ABOUT BOGEN

Bogen - Early 1950s

Founded in 1932, Bogen's dedication to providing superior sound reinforcement products has won the continued loyalty of an ever-increasing network of distributors, dealers, contractors, and installers worldwide.

What's our secret? It's not a secret, it's focus. Focus on our customer's needs!

Focused salespeople, focused customer service and technical support reps, focused research and development engineers, focused production and manufacturing teams – all dedicated to improving and changing our products, support, and service to meet the changing needs of customers. This is why Bogen is the industry leader of communications equipment and technology used in offices, commercial establishments, and schools.

Bogen's products include audio amplifiers and speakers; related sound, intercom, and communications systems equipment; background and foreground music equipment; conference telephones; and music-on-hold players.

Our objective is to provide installers with a high-quality sound system that is easy to design, high-quality products that are easy to install, dependable products that are reliable and expandable with convenient features that are easy to understand, operate, and which produce exceptional voice and music reproduction when and where it is needed. We offer a full line of products and are always adding new electronics equipment to meet your technical requirements.

When you order from us, you can do so confidently, knowing that Bogen's experience and innovative technology will provide your customers with products they will appreciate and be pleased with... well into the future.

Our goal is to satisfy you – by providing products that are easy to design, easy to order, easy to install, and easy to use.

Bogen - Today

## BOGEN'S CUSTOMER COMMITMENT

Bogen knows the needs of sound contractors and installers, therefore, for products in this catalog,

### Bogen Guarantees

To have the products in this catalog in stock. If we do not have the product(s) you need in stock, we will do one of the following:

- *find the product for you*
- *ship the back-order freight-free, or*
- *give you a free upgrade at no extra cost.*

### Bogen Guarantees

To ship orders received by 2:00 pm (EST) the same day to credit-approved customers for products in this catalog.

If we don't meet the deadline, we will:

- *ship the item(s) to you freight-free.*

### Bogen Guarantees

That your installations never get delayed by the out-of-box failure of a Bogen product. If we delay your install, we will:

- *ship a product replacement to your job site, overnight, at Bogen's expense\*.*

*Discontinued items are excluded from the commitments outlined above.*

*\* This applies only to sound contractors and installers who experience an out-of-box failure at a job site while installing a system.*

*Distributor stocking orders are excluded.*
