## FREE APPLICATION DESIGN SERVICE

Bogen's Application Design Service was created to assist with the design of paging systems for any and every project encountered. It's fast, comprehensive, and **FREE**. So let us design it for you!

The Application Design Service provides:

- **Speaker Placement Design**
- **Complete Bill of Material** – This includes product description, model number, and quantity. We can even fax it to the distributor of your choice for pricing, if you wish.
- **Connectivity Drawings** • **Scope of Work** • **Detailed Assumptions**
- **Red-lined Blueprints** (blueprints must be supplied; AutoCAD® blueprints accepted)

Here's how the Application Design Service works:

- You provide information about the project (see *Design Request Form* on our website). For large or complex applications, your local Bogen Field Sales Manager can visit the site for exact specifications.
- Bogen will provide you with a working technical bid response document... and then all you have to do is deliver it.

A copy of the bid will also be sent to your local Bogen Field Sales Manager for immediate follow-up, and to see if you have any questions or need additional assistance.

**Put Bogen's resources and expertise to work for you.**

No application is too big, small, simple, or complex for Bogen paging products.

**Call 1-800-999-2809 (option 2)**  
for more information or to send in a project for us to work on right now.
